PROFESSIONAL SUMMARY

Frontend-focused Full Stack Developer with 3+ years building production applications serving 16+ million users. Specialized in React, TypeScript, and Next.js, with experience in modern state management (TanStack Query, Zustand) and scalable frontend architecture. Proven track record resolving critical production issues and leveraging AI-augmented workflows to deliver high-quality solutions in cross-functional teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL (Structured Query Language), HTML5, CSS3

Frontend: React.js, Next.js, TanStack Query, Zustand, Redux Toolkit, Tailwind CSS, Material UI, Responsive Design, Frontend Architecture, Design Patterns, API Integration, Jest, Vitest

Backend: Node.js, Express.js, APIs RESTful

Databases: MySQL

Tools: Git, Jira, Postman, WordPress, Antigravity, GitHub Copilot

Methodologies: Agile / Scrum, Code Reviews, Testing, Technical Documentation

PROFESSIONAL EXPERIENCE

Independent Developer & Technical Educator

Remote | Sep 2023 – Present

- Developed and published the course “JavaScript for Beginners” on Udemy, reaching 500+ active students and teaching core programming fundamentals.
- Created a 7-hour full-stack authentication tutorial using React and Node.js on YouTube, reaching 5,000+ developers and showcasing advanced implementation patterns.
- Provided web development consulting services, including responsive WordPress websites for international clients.
- Led two technical training workshops for the NGO Reciclaje Tecnológico in Huesca, Spain, teaching computer refurbishment (Linux/Ubuntu installation) and digital literacy to 50+ underprivileged youth through the EU-sponsored MeetAndCode initiative.

Frontend Developer — Dacodes (Client: Infonavit)

Remote, Mexico | May 2022 – Jul 2023

- Developed 5+ production frontend modules using React and TypeScript for Mi Cuenta Infonavit, serving over 16 million users.

- Implemented advanced state management and REST API integration patterns, improving overall system performance by 25%.
- Resolved a critical production incident in the complaints module, restoring full functionality without user impact.
- Implemented frontend best practices that reduced team debugging time by 20% and improved code maintainability.

Software Development Intern — BIN Ingeniería

Tabasco, Mexico | Jan 2019 – Apr 2020

- Collaborated with a 7-person team developing internal React-based applications.
- Executed thorough testing processes, identifying 15+ critical bugs, increasing application reliability by 30%.
- Participated in Agile ceremonies, contributing to improved sprint efficiency and team productivity.

Technical Support Engineer — Ingram Micro Mexico

Mexico City | Jan 2015 – Sep 2017

- Achieved an 85% first-call resolution rate by diagnosing complex IT issues while maintaining high customer satisfaction.
- Trained 50+ enterprise clients on software tools, increasing productivity by 40% through effective knowledge transfer.

PROJECTS

Huellitas – Full Stack Web Application | *Next.js, TypeScript, TanStack Query, Zustand*

- Designed and developed a pet adoption platform using Next.js and TypeScript, implementing scalable state management with TanStack Query and Zustand.
- Built reusable UI components with Tailwind CSS and implemented authentication and CRUD workflows.
